### PRESIDENT'S REPORT

Hello members,

Thank you to all who attended the Club Assembly and again a special thank you to the Directors who continue to keep the wheels turning.

I would like to take the opportunity in this week's report to talk about new projects. As Ross Newport expressed, our Club is always open to new project ideas. If you cannot find a solution to a need you have identified in the community - we can help! It is important that we consider all projects and community needs carefully, therefore Board consideration is required for all new project ideas. If you would like to share your idea, talk to Ross Newport in the first instance.

See you Thursday everyone, stay safe!  
Chantelle

### THIS WEEK

#### NATIONAL YOUTH SCIENCE FORUM (NYSF)

At this week's meeting we will hear from the four returning students who Camden Rotary Club helped sponsor earlier this year to the National Youth Science Forum (NYSF).

The vision and purpose of NYSF is to inspire young Australians to value science, technology, engineering and maths (STEM) and its importance in our communities.

NYSF is just one of Rotary's wonderful youth programmes that our Club proudly supports.

Another great meeting to invite a guest along to hear about our Club and Rotary

The month of February is very special in the Rotary calendar since it is designated **World Understanding Month**. It is also known as **Peace and Conflict Resolution Month**. This month includes the anniversary of the first meeting of Rotary held on February 23, 1905, now designated World Understanding and Peace Day.

World Understanding Month is a chance for every club to pause, plan and promote the Fourth Avenue of Service-International Service, and Rotary's continued quest for goodwill, peace and understanding among the people of the world.

Many clubs and their representatives are already participating in activities that promote world understanding through humanitarian service in support of a variety of international projects.

Rotary's 100 plus years effort to promote global understanding and peace has made a big difference in many parts of the world. Hundreds of thousands of people have benefited from Rotary projects around the world.

Since 1905 Rotary has grown into an international organization helping to launch, complete and sustain numerous service projects worldwide. Rotarians promote and enjoy international friendships which help to broaden our commitment to helping others, no matter where they may be. While some projects and services have an immediate impact, all are excellent foundations for the future and continue to build peace and goodwill.

**James Muecke**, Australian of the Year 2020, is a researcher, a teacher, an author, a musician, a photographer, and a film producer, and uses his many skills to deliver passionate, fascinating, and at times confronting presentations about his life, his work, philanthropy, resilience and social entrepreneurship. A neurological condition impacting on his dexterity has forced James into a premature retirement from surgery. Not letting his disability slow him down, James has redirected his vigour to crafting films, and has a number of powerful documentaries under his belt and several compelling projects in production.
